

TOILET FACILITIES FOR WORKERS

In accordance with Yavapai County Ordinance 2025-4 Section R326.1.1 and the 2024 IPC, Section 311, *“Toilet facilities shall be provided for construction workers, and such facilities shall be maintained in a sanitary condition. Construction worker toilet facilities of the non-sewered type shall conform to PSAI Z4.3 or to IAPMO/ISO 30500.”*

Toilet facilities shall be required for all new single-family and new two-family (duplex) construction sites, as well as all commercial sites, for the duration of the project. Such facilities shall be on-site at the commencement of any work. The number of facilities required shall be one (1) facility for every ten (10) employees.

It shall be at the inspector’s discretion to deny, cancel, or fail the inspection if the facility is not present, or provide notice that the facilities are required and must be present at the time of the next inspection.

At no time shall the approved plans for the project be kept in the toilet facilities. This action will result in the owner/contractor obtaining a new set of approved plans prior to the next building inspection.
