How is testing going?

Spectrum Healthcare's testing blitz this past Saturday tested 203 individuals at their Prescott site, and 102 at the Cottonwood location. They are already receiving results from those tests from LabCorps. They will continue the blitzes the next three Saturdays. Thumb Butte Medical is offering drive-up nasal swab testing this week, Monday – Friday, at the Prescott location on Willow Creek, with same-day results.

Sonora Quest reports that it has three new dedicated COVID-19 production lines running with a focus on optimizing workflow. As additional testing lines are implemented over the coming weeks, Sonora Quest will continue to increase testing capacity.

- Capacity will continue to increase as additional testing lines are added until a capacity of 60,000 tests per day is reached on Aug. 31.
- Sonora Quest's ability to reach a 60,000 tests per day capacity greatly positions Arizona's readiness should the State experience a second wave of COVID resurgence.
- Additionally, Sonora Quest has hired and trained more than 200 additional employees (full-time and temporary) to support the expansion in COVID-19 diagnostic testing.
