January 11th Update - Yavapai County reports 578 COVID-19 Cases and 10 Additional Deaths
YCCHS Vaccine Information page will be Updated Today

Almost **3.5 million** people have been tested for COVID-19 in Arizona with **627,541** positive results and **10,147** deaths reported statewide. Yavapai County has tested **87,735** residents with **13,954** positive cases, **5,162** recovered, and **269** deaths. YRMC West has **63** COVID-19 patients, YRMC East is caring for **32** patients. VVMC reports **31** COVID-19 hospitalizations. The VA reports **9** COVID-19 patients.

COVID-19 Vaccinations Roll out with Limited Supply

Phase 1a: If you are a *healthcare facility, an agency* with emergency medical service workers or a long-term care facility with staff you'd like to get vaccinated, please sign up at:
https://form.jotform.com/203526242875053, with your contact information, the # of staff interested in being vaccinated, etc. so YCCHS can contact you and let you know how and where your staff can be vaccinated. YCCHS estimates we are close to 75% of Phase 1a being completed.

Phase 1b: We expect Phase 1b to begin with teachers and staff and first response agencies due to limited supply of vaccine. If you run a *workplace* or *agency* with staff or residents in protective services occupations, essential services/critical industry workers, childcare and education agency, or a congregate setting with adults at high risk, please sign up at: **https://form.jotform.com/203526242875053** with your contact information, the # of staff interested in being vaccinated, etc. so YCCHS can contact you to let you know how and when your staff can be vaccinated.

For adults 75 and older, many pharmacies will be receiving limited vaccine supply as soon as January 19th and at that time you can make an appointment at your preferred pharmacy. Private providers will also be receiving vaccine in the coming weeks. The **www.yavapai.us/chs** website will be updated with links to the pharmacy's registration sites. A listing of sites/providers offering the vaccine for this priority group will be added later this week. Fry's, Albertson's, Safeway, Walgreens, and CVS are part of the CDC Retail Pharmacy Partner program.

Please realize we have a large population in this phase and vaccine supply is limited. This phase will take considerable time due to the roll out of 2nd vaccinations for those who received the initial dose. It could take months for Phase 1b to be largely completed. YCCHS estimates sometime in the Spring for Phase 1c.

The State Farm site in Maricopa County will be open to people in Phase 1a or Phase 1b regardless of county of residence. The doses administered will be the Pfizer vaccine, so the 2nd dose must be Pfizer, as well. There will be 21 days between the first and second doses – vs the 28 days for the Moderna vaccine, which is all Yavapai County will be receiving. To sign up for the State Farm clinic go to the ADHS website Vaccine Finder page. Please note that in order to be vaccinated, **you will need to be a member of the current phase**, schedule an appointment, and provide appropriate identification once you arrive at the vaccination site.
