### Many States Beginning to Expand Access to All Adults by May

An article from the *New York Times* reports that since December COVID-19 vaccines have only been available to only the most vulnerable Americans and some essential workers, but that is quickly changing with vaccine production and distribution ramping up. States are also racing to stay ahead of the growing number of virus variants, which are more contagious and possibly more deadly. At least three states have announced they'll expand to the general population by May 1<sup>st</sup>, with many others planning to do so by next month. With any luck, Arizona will be one of them.

Over 2.6 Million Arizonans have been vaccinated, with over 1.6 million having received their first dose, or 23.1% of the population. Yavapai County has vaccinated over 99,000 residents, with 58,000 having received the first dose, or 24.9% of the population, utilizing 100.5% of the vaccine allocated to the county. Close to 43,000 residents are fully vaccinated. With Yavapai County now in Phase 1c and offering vaccines to ages 55+, more people can schedule their appointments. Check the YCCHS Vaccine Information page for availability at the Points of Dispensing (PODs), as well as pharmacies listed on the Pharmacy Information page. <https://www.yavapai.us/chs/Home/COVID-19/Vaccine>. If you do not have internet/computer, call 928-442-5103 for assistance.

The Community Health Center of Yavapai's (CHCY) clinics in Paulden and Cordes Lakes are now fully booked. They will be planning a clinic in Mayer to be announced. Spectrum Healthcare is also offering outreach clinics in Congress, Yarnell, Wilhoit, and Jerome this month, with clinics in Ash Fork, Seligman, and Camp Verde in April. To schedule and appointments go to [www.spectrumhg.org/town](http://www.spectrumhg.org/town) (i.e. [www.spectrumhg.org/congress](http://www.spectrumhg.org/congress)) or call the Spectrum Call Center at 928-414-8884.

**Yavapai County reports 11 new COVID-19 Cases** - The county has tested **105,583** residents for COVID-19 with **18,151** positive cases, **7,606** recovered, and **477** deaths. Cross-referencing cases for duplicates and classification of the late-reported cases by a local medical facility continues for a net +8 cases. Yavapai Regional Medical Center is caring for **6** COVID-19 patients, 3 on the West campus, and 3 on the East campus. Verde Valley Medical Center reports **1** COVID-19 patient, and the VA has **no** COVID patients.
