Help your Neighbor Make an Appointment for the COVID-19 Vaccines

Governor Ducey stated yesterday that distribution of vaccine is the best path to getting back to normal and thanked the millions of Arizonans who have rolled up their sleeves to make the rollout of the vaccine campaign successful.

With only 56.1% of Yavapai County's population 65+ vaccinated, many community partners are stepping up to assist seniors in obtaining their vaccine – Spectrum Healthcare and YRMC have mobile units visiting homebound seniors, NACOG Area Agency on Aging has coordinated with Verde Valley Caregivers to help seniors with making appointments and transportation to and from their appointments. Another valuable resource is the residents of our county who could encourage their friends and neighbors in finding the available appointments using the Yavapai County Vaccine Information page:

<https://www.yavapai.us/chs/Home/COVID-19/Vaccine> and booking the appointment for them.

Yavapai County is fortunate to have community partners such as Spectrum Healthcare and YRMC who have set up the large sites to vaccinate residents of our county. The amount of time, manpower, equipment, safety precautions and efficient coordination have been the ultimate service to our communities in the fight to beat this pandemic. They have the capacity to vaccinate 700-1,000 people a day. The Yavapai County phone bank is closed today, however residents who need assistance can call Spectrum Healthcare or YRMC call centers at 928-414-8884 and 928-708-4556

Yavapai County reports 2 new COVID-19 Cases. Since last March, the county has tested **107,234** residents for COVID-19 with **18,270** positive cases, **6,838** recovered, and **487** deaths. With cross referencing cases for duplicates, there is a net -21 cases. Close to 109k doses of vaccine have been administered in the county, or 28.0% of the population, with over 65K having received at least one dose and 45k fully vaccinated. Yavapai Regional Medical Center is caring for **6** COVID-19 patients, Verde Valley Medical Center reports **2** COVID-19 patients, and the VA has **no** COVID patients.
