Severe Weather to Impact COVID-19 Vaccine Delivery for YRMC Vaccination Clinic

(Prescott, February 17, 2021) – Dignity Health, Yavapai Regional Medical Center (YRMC) has been notified that a COVID-19 vaccine shipment expected this week will be delayed by severe weather across the country. YRMC currently has enough vaccine to serve people who have appointments through 12:00 pm on Wednesday, February 17 at YRMC's Prescott Gateway Mall vaccination site. All afternoon appointments for February 17 will be moved to the following Wednesday (February 24) at the same appointment time as the original appointment time.

This is a very fluid situation that may change by the hour. YRMC encourages anyone with an appointment for the afternoon of Wednesday, February 17, Thursday, February 18, or the week of February 22nd to watch their email, including junk mail or spam folders, for additional instructions. Updates will also be posted to YRMC's Facebook community at: www.facebook.com/DignityHealthYavapaiRegionalMedicalCenter

YRMC will make every effort to move anyone impacted by this situation to a new date once more vaccine arrives. An update on vaccine delivery for Yavapai County is expected by Thursday, February 18.
