YCCHS Announces Scheduled Community Flu Clinics

The Yavapai County Community Health Services Disease Prevention Section Manager, Sally Slater, works with the Board of Supervisors annually to schedule community flu clinics in their districts to meet the residents where they live each year. Public Health Nurses will be following all CDC guidelines for the safety of everyone receiving a vaccine, and masks will be required for indoor clinics, and recommended for outdoor clinics.

Benefits: The annual flu vaccine is the best way to reduce the chances that you will get the seasonal flu and spread it to others. The more people who get vaccinated against the flu, the less the flu will spread throughout the community.

Who Should get the Flu Vaccine: Everyone should receive an annual flu vaccine. Protecting yourself from the flu also protects the people around you who are more vulnerable to serious flu associated illnesses such as: infants, older adults, and anyone with a chronic condition.

Does the Flu Vaccine Work Right Away? No, it takes about two weeks after receiving the flu vaccination for the antibodies to develop in the body and provide protection against the flu. That's why it's better to receive your flu vaccination as soon as available or early in the season.

The '21-'22 Flu season officially begins October 1, and the flu typically hits its peak between January and March. YCCHS and state leaders have put an extra emphasis on the vaccination because of COVID-19's ongoing impact. Flu vaccines will not protect against flu-like illnesses caused by non-influenza viruses.

Both COVID-19 and influenza are contagious respiratory illnesses that share many of the same signs and symptoms. COVID-19 and influenza can result in severe illness and complications for older adults, people with certain underlying medical conditions, and pregnant women. If you have questions about whether you should get a flu vaccine, consult your healthcare provider.

If you have insurance, please bring your insurance card. If is not convenient to make one of these events please call 928-771-3122 to make an appointment at one of our three locations in Prescott, Prescott Valley or Cottonwood.
