

Central Yavapai Highlands Water Resources Management Study  
Technical Working Group  
Thursday, November 6, 2008  
Meeting Minutes

Attendees:

Doug Von Gausig – Clarkdale	Jeanmarie Haney – TNC
Diane Joens – Cottonwood	Ed Wolfe - VWA
Lew Currier – Jerome	Candace McNulty - Citizen
Jane Moore – Jerome	Leslie Graser – ADWR
Jim Holt - Prescott	Abe Springer – NAU
John Munderloh – Prescott Valley	John Nysted - USFWS
John Rasmussen – Yavapai County WAC	Don Bills - USGS
Stanley Bullard – Camp Verde Water System	Vivian Gonzales - Reclamation
Ken Janecek – CWAG	Leslie Meyers – Reclamation

## **1. Development of Demand Analysis**

### **Update**

#### **Planning Areas – Table Grouping**

Leslie G. grouped the table by planning area. Copies were provided to the TWG. Each Planning Area - Point of Contact has been asked to review the information in the Water Provider List and the Demand Table to verify the information.

#### **Information Received from Points of Contact**

The TWG reviewed the Demand Table and other updated information.

### **Acquiring Data/Making Good Assumptions**

#### **Municipal Data Gaps**

The TWG discussed the significance of shifting from municipal boundaries to planning area boundaries. We also need to be very careful not to double account for areas.

**Action Item: Leslie M. will work with Vivian to update the Planning Area maps to avoid accounting issues.**

## **CDPs and CCDs**

The TWG discussed the methods for calculating water usage and making projections in the CCDs.

Action Item: John will coordinate with Chip and Carol to develop a methodology.

## **General Discussion**

### **GPCD Definitions**

There has been some concern about using uniform assumptions for the study. We discussed the use of GPCD and the development of meaningful projections. The CYHWRMS Plan of Study states that “demands should include: Municipal, Industrial, Agriculture, Ecological, Recreational, Tribal, Energy, and others.” Doug suggested that maybe we should put together a calculator which allows each community to calculate domestic water use with gpcd and then add lump sums for other uses as appropriate.

**Action Item: Doug will develop demand calculator for review and discussion by the TWG.**

### **Population Assumptions**

Based on the same “uniform assumption” discussion, the TWG addressed population data.

**Action Item: Leslie M. will add DES information to Demand Table for comparison purposes.**

### **Misc.**

**Action Item: Add Will Emerson – Dewey Humboldt Town Manager to the Point of Contact list.**

Next Meeting:

**Thursday, December 4, 2008**

**10:00 am**

**Yavapai County Administration Building**

**Gladys Gardner Meeting Room, First Floor**

**1015 Fair Street**

**Prescott, AZ 86305-1852**
