INTRODUCTORY SECTION

Yavapai County Finance Department

December 20, 2014

To the Board of Supervisors and Citizens of Yavapai County:

State law requires that counties prepare a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by the Arizona State Auditor General's Office or by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of Yavapai County for the fiscal year ended June 30, 2014.

This report consists of management's representations concerning the finances of Yavapai County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Arizona State Auditor General's Office has audited the County's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2014, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit; that there was a reasonable basis for rendering an unqualified opinion that Yavapai County's financial statements for the fiscal year ended June 30, 2014, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the County's separately issued Single Audit report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

Yavapai County was formed in 1864; one year after the Arizona Territory was established. The County was named after the Yavapai tribe, whose name means "people of the sun". The County is located in the central portion of the state encompassing approximately 8,125 square miles.

The County is empowered to levy a property tax on both real and personal properties within its boundaries.

The County operates under the supervisor-administrator form of government. Policy-making and legislative authority are vested in a Board of Supervisors (Board) consisting of five members elected to four-year terms representing five supervisorial districts. The Board appoints an Administrator, who is responsible for developing and presenting the County budget, assisting department heads and elected officials, and coordinating with other governments in intergovernmental relations.

The Board is responsible for the financing and administration of County government, has final approval over County departmental budgets and sets property tax rates. As part of its administrative duties, the Board is responsible for appointing department heads, and members of County boards and commissions dealing with planning and zoning, building codes, health, employees and employee benefits, private industry and agriculture. The Board acts as the board of directors for special districts within the County such as jail, water, sanitation, lighting, flood control and library.

In addition to the Board, other elected officers representing the County include the Assessor, Clerk of the Superior Court, County Attorney, Recorder, School Superintendent, Sheriff, and the Treasurer. There are seven elected Superior Court Judges, five Justices of the Peace, and four Constables.

Yavapai County provides a full range of services, including police protection, courts, health services, elections, the construction and maintenance of highways, streets, other infrastructure and parks.

The financial reporting entity includes all the funds of the primary government (Yavapai County), as well as its component units. Component units are legally separate entities for which the primary government is financially accountable. The Board acts as the Board of Directors of these component units. Accordingly, the Yavapai County Flood Control District, Library District, Jail District and various special assessment districts are reported as a part of the governmental fund types of the primary government.

There are various school districts, special districts, and fire districts within Yavapai County governed by independently elected boards. The financial statements of such districts are not included in this report except to reflect amounts held in an agency capacity by the County Treasurer. The reporting entity is further described in Note 1 to the financial statements.

The annual budget serves as the foundation for the County's financial planning and control. All departments of the County are required to submit requests for appropriation to the County Administrator annually. These requests are used as the starting point for developing a proposed budget. The County Administrator then presents this proposed budget to the Board of Supervisors for review on or before the third Monday in July. On or before the fourteenth day before the day in August when the Board sets tax levy rates, the Board must hold a public hearing and a special meeting of the Board, at which time the final budget must be adopted. The final budget is adopted by fund and department. Transfers of appropriations between funds or departments require approval of the Board. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund and major special revenue funds this comparison is presented beginning on page 59 as part of the required supplemental information. For governmental funds, other than the general fund and major special revenue funds with appropriated annual budgets, this comparison is presented in the governmental fund subsection of this report, which starts on page 82.

Local Economy

Yavapai County's population increased from 211,033 in 2010 to 216,057 (estimate) in 2014 according to the Arizona Department of Administration, Office of Employment and Population Statistics, which is a 2.4% increase as compared to the State of Arizona population increase of 4.0% for the same time period. Yavapai County has a higher percentage, 27.1%, of persons over the age of 65 as compared to the State of Arizona with 15.3%. This indicates that a greater segment of the population is retired, which provides a more stable consumer base.

Yavapai County, as many other counties in the State of Arizona, continues to experience very little increase in real estate values. As a result, property tax collections for fiscal year 2013-14 were flat, showing no increase when compared to fiscal year 2012-13. Despite this, the population is growing and we anticipate our sales tax revenues to trend slowly upward.

The Arizona Department of Administration, Office of Employment and Population Statistics estimates a 6.7% average 2014 unemployment rate for Yavapai County. Yavapai County is the single largest employer in Yavapai County, with Yavapai County Regional Medical Center as the second largest employer.

Retail trade, tourism, utilities, healthcare, warehouse and distribution centers, mining, light industry and government all contribute to the economy.

Long-Term Financial Planning

In November of 1999, the Yavapai County Jail District was formed when the citizens approved a dedicated excise tax of up to 1/4 cent for the purpose of constructing, operating, maintaining and financing County jail facilities. In December of 1999, the Board adopted Resolution No.1999-1 establishing the initial excise tax of 1/5 cent. On March 26, 2003, the excise tax was raised to the voter approved rate of 1/4 cent.

The excise tax was used to construct an expansion of the jail facilities to increase the size of the Camp Verde jail facility by 480 beds and was completed in the fall of 2003. Total cost was approximately \$20.0 million. Pledged revenue obligations in the amount of \$15.3 million were issued to finance the majority of the construction costs. The final payment for this debt obligation was paid at the end of fiscal year 2011-12.

The Jail District sales tax and the maintenance of effort from the General Fund are inadequate to fund the operation of the Jail District. The Board asked the voters of Yavapai County in the November 4, 2014, general election for authorization to extend the life of the tax and to increase the Jail District sales tax rate from ¼ cent to ½ cent however, this request was voted down. Because the operation of a county jail facility is statutorily required, other resources will continue to be diverted at the direction of the Board in order to fund the operation of the Jail District.

In May 2008, the Board entered into a \$50 million capital lease agreement to finance the design and construction of a Superior Court building next to the Camp Verde jail facility, a Juvenile Justice Center and two administrative buildings in Prescott. The Board modified this lease agreement and retired \$25 million of the original \$50 million. Because of the economic environment and the modification of the lease agreement, the Board eliminated the construction of the administrative buildings from the original plan. The Superior Court building was completed in fiscal year 2009-10 and the Juvenile Justice Center was completed in fiscal year 2012-13.

Relevant Financial Policies

Traditionally, the Board has managed the County in a fiscally conservative environment with a primary goal to minimize the County property tax rate and to operate within the tax revenues received during the fiscal year. The Board has delegated the responsibility to monitor revenues and to make recommendations when necessary to maintain fiscal discipline to the County Administrator.

During the past five fiscal years, the Board has enacted several measures to manage the declining revenues. County departments reduced expenditures in fiscal year 2009-10 by 7.5% and for the next four fiscal years departments were held the same expenditure level as the previous fiscal year. As revenue continues to improve, the Board has appropriated funds to replace obsolete vehicles and computer replacement budgets.

Awards and Acknowledgements

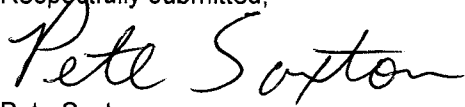

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Yavapai County for its comprehensive annual financial report for the fiscal year ended June 30, 2013. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements

The preparation of this report could only be accomplished through the efforts of the staff of the Finance Department and the assistance of the Arizona State Auditor General's Office. We also wish to thank the Board of Supervisors for their dedicated oversight of the financial condition of the County and their support for our efforts to improve its financial operations.

Respectfully submitted,

Independent Auditors' Report

Members of the Arizona State Legislature

The Board of Supervisors of
Yavapai County, Arizona

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and aggregate remaining fund information of Yavapai County as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and aggregate remaining fund information of Yavapai County as of June 30, 2014, and the respective changes in financial position for the year then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of Matter

As discussed in Note 1 to the financial statements, for the year ended June 30, 2014, the County adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 65. Our opinions are not modified with respect to this matter.

As described in Note 13 to the financial statements, the County restated beginning net position/fund balances of its financial statements for the year ended June 30, 2014, to correct misstatements in its previously issued financial statements. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the Management's Discussion and Analysis on pages 13 through 20, the Budgetary Comparison Schedules on pages 59 through 64, and the Schedule of Agent Retirement Plans' Funding Progress on page 65 and 66 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund statements and schedules and the introductory and statistical sections listed in the table of contents are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The combining and individual fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Compliance Over the Use of Highway User Revenue Fund and Other Dedicated State Transportation Revenue Monies

In connection with our audit, nothing came to our attention that caused us to believe that the County failed to use highway user revenue fund monies received by the County pursuant to Arizona Revised Statutes Title 28, Chapter 18, Article 2, and any other dedicated state transportation revenues received by the County solely for the authorized transportation purposes, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the County's noncompliance with the use of highway user revenue fund monies and other dedicated state transportation revenues, insofar as they relate to accounting matters.

The communication related to compliance over the use of highway user revenue fund and other dedicated state transportation revenue monies in the preceding paragraph is intended solely for the information and use of the members of the Arizona State Legislature, the Board of Supervisors, management, and other responsible parties within the County and is not intended to be and should not be used by anyone other than these specified parties.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we will issue our report on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters at a future date. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Yavapai County

Management's Discussion and Analysis

As management of Yavapai County, we offer readers of Yavapai County's financial statements this narrative overview and analysis of the financial activities of Yavapai County for the fiscal year ended June 30, 2014. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1 – 5 and the County's basic financial statements, which begin on page 22.

Financial Highlights

- Yavapai County's assets exceed liabilities as of June 30, 2014, by \$308,567,653 (net position). Of this amount, \$34,282,231 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- As of June 30, 2014, Yavapai County's governmental funds reported combined ending fund balances of \$69,205,917, which is an increase of \$268,442 from the prior year ending fund balance of \$68,937,475. This amount was restated to correct an error in prior years.
- As of June 30, 2014, unassigned fund balance for the general fund is \$9,716,724, an increase of \$1,249,038 from the prior year restated unassigned fund balance.
- As of June 30, 2014, committed fund balance for the regional road fund is \$7,816,985, an increase from the prior year restated amount of \$869,242.
- As of June 30, 2014, restricted fund balance for the Highway User Revenue Fund (HURF) is \$9,407,750, an increase from the prior year of \$2,175,134.
- As of June 30, 2014, committed fund balance for the capital projects fund is \$19,401,315, a decrease from the prior year restated amount of \$2,152,963.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Yavapai County's basic financial statements. Yavapai County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of Yavapai County's finances, in a manner similar to a private sector business.

The statement of net position presents information on all of Yavapai County's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Yavapai County is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused paid-time-off leave).

Both of the government-wide financial statements distinguish functions of Yavapai County that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of Yavapai County include general government, public safety, highways and streets, sanitation, health, welfare, culture and recreation, and education.

The government-wide financial statements not only include Yavapai County itself (known as the primary government), but also a legally separate Jail District, Flood Control District, Library District and various Special Assessment Districts. These districts function for all practical purposes as departments of Yavapai County, and therefore have been included as an integral part of the primary government.

Yavapai County

Management's Discussion and Analysis

The government-wide financial statements can be found on pages 22 – 23 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Yavapai County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of Yavapai County can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Yavapai County maintains numerous individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for seven funds considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 24 - 30 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support Yavapai County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary funds financial statements can be found on pages 31 - 32 of this report.

Notes to the financial statements. The notes provide additional information that is essential to the full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 33 - 58 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning Yavapai County's progress in funding its obligation to provide pension benefits to its employees and budgetary comparison schedules for the general fund and major special revenue funds. Other required supplementary information can be found on pages 59 - 66 of this report.

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 70 - 107 of this report.

Yavapai County Management's Discussion and Analysis

Government-wide Financial Analysis

Net Position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. Yavapai County's assets exceeded liabilities by \$308.6 million at the close of the most recent fiscal year.

	Net Position (in millions)	
	Governmental Activities	
	2014	2013 (as restated)
Current and other assets	\$ 80.0	\$ 81.7
Capital assets	268.8	271.5
Total assets	<u>348.8</u>	<u>353.2</u>
Long-term liabilities outstanding	32.3	33.8
Other liabilities	7.9	11.5
Total liabilities	<u>40.2</u>	<u>45.3</u>
Net position:		
Net investment in capital assets	244.9	246.3
Restricted	29.4	29.2
Unrestricted	34.3	32.4
Total net position	<u>\$ 308.6</u>	<u>\$ 307.9</u>

The largest portion of Yavapai County's net position (79%) reflects its investment in capital assets (e.g. land, buildings, equipment, infrastructure, software, construction in progress), less accumulated depreciation and any related outstanding debt used to acquire those assets. Yavapai County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although Yavapai County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Governmental Activities current and other assets decreased \$1.7 million from the previous year. This decrease is primarily the result of normal variation in the timing of paying expenses during the fiscal year. Capital assets decreased \$2.7 million because the decrease in asset value from depreciation was larger than the increase in asset value from new acquisitions.

Governmental Activities long-term liabilities decreased \$1.5 million from the previous fiscal year due to payments for special assessment bonds and capital leases.

Governmental Activities other liabilities decreased \$3.6 million primarily due to the timing of paying expenses which decreased accounts payable \$2.3 million.

Yavapai County's Governmental Activities restricted net position of \$29.4 million represents resources that are subject to external restrictions on how they may be used. This amount has changed very little from the previous year.

The Governmental Activities unrestricted net position increased \$1.9 million from the previous fiscal year. This increase is primarily due to an increase in the collection of State shared sales taxes. The Governmental Activities unrestricted net position balance of \$34.3 million may be used to meet the government's ongoing obligations to citizens and creditors.

Yavapai County

Management's Discussion and Analysis

At the end of the current fiscal year, Yavapai County reports positive balances in all three categories, net investment in capital assets \$244.9 million, restricted net position \$29.4 million and unrestricted net position \$34.3 million.

Changes in Net Position. The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. For the fiscal year, net position increased \$0.7 million. The basis of accounting used in the government-wide statement of activities excludes capital outlay while its revenues include taxes that are used, in part, for the construction of those assets.

Changes in Net Position		Governmental

Yavapai County Management's Discussion and Analysis

Governmental activities. Governmental Activities revenues totaled \$168.8 million for fiscal year 2014. The following are highlights of County revenues:

- Sales taxes are comprised of state shared-sales tax, a 0.5% County excise tax and a 0.25% Jail District excise tax. Overall sales tax decreased \$0.9 million from the previous fiscal year, this is primarily due to the one time effect of the restatement discussed in Note 13 on page 58.
- Operating grants and contributions increased by \$1.2 million from the previous year, because of the State contributions to the repair and maintenance of roadways.
- Capital grants increased by \$1.3 million from the previous year, because of the amounts due and collectible from the special assessments of the improvement districts.

Revenues by Source - Governmental Activities

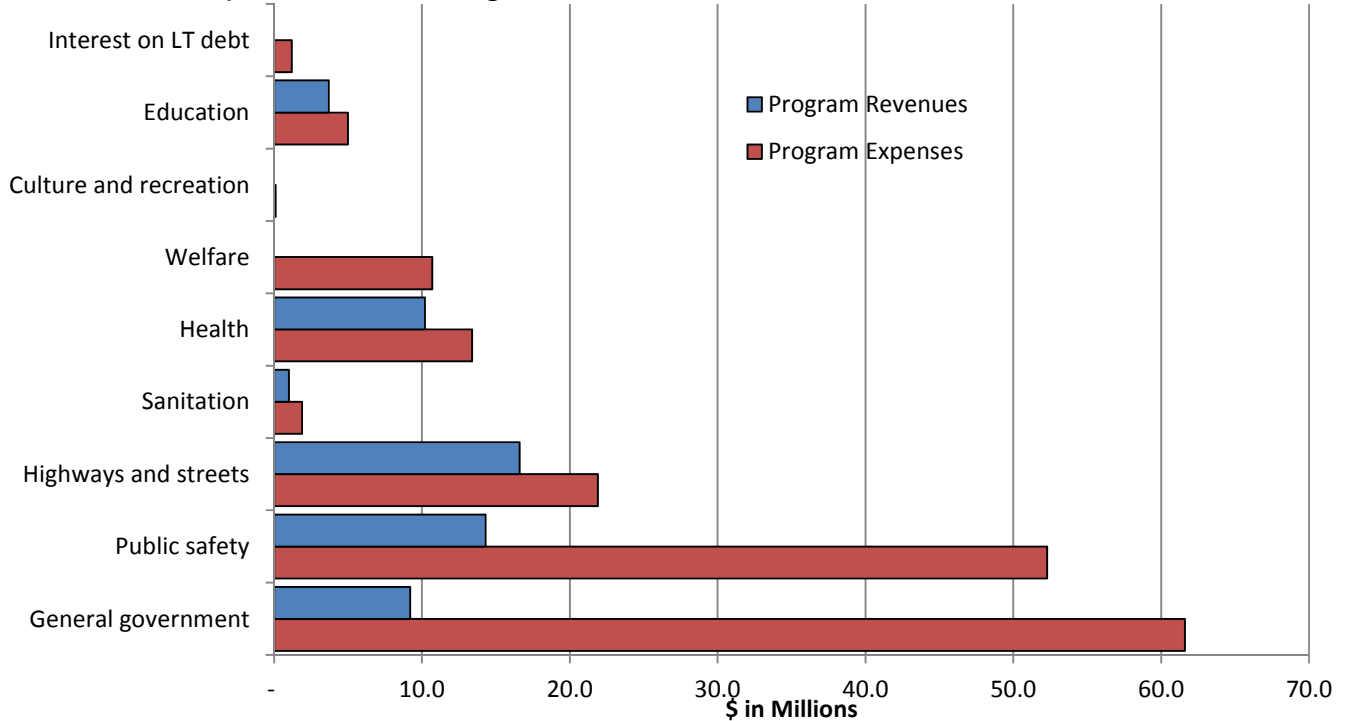

Yavapai County Management's Discussion and Analysis

Expenses

Governmental activities expenses decreased \$1.7 million from the previous fiscal year. Public Safety increased \$0.6 million from the previous year due to increased depreciation expenses. Highways and streets declined \$1.6 million due to decreased depreciation and decreased expenses for repairs. Education decreased \$0.8 million from the previous year due to reduction of expenses in the Detention School.

Expenses and Program Revenues - Governmental Activities

Financial Analysis of the Government's Funds

As noted earlier, Yavapai County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental funds. The focus of Yavapai County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing Yavapai County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, Yavapai County's governmental funds reported combined ending fund balances of \$69,205,917, which is an increase of \$268,442 from the restated prior year balance. The ending fund balances are categorized as follows.

- Nonspendable \$903,437
- Restricted \$29,214,659
- Committed \$29,500,387
- Unassigned \$9,587,434

While the total fund balance changed by only 0.4%, the unassigned balances increased by \$1,119,748, or 13%, and this change is primarily due to General Fund activity.

Yavapai County

Management's Discussion and Analysis

The General Fund is the chief operating fund of Yavapai County. At the end of the current fiscal year, the General Fund total fund balance was \$10,250,797, and the unassigned category was \$9,716,724. The unassigned category is \$1,249,038 more than the previous fiscal year as restated. This increase is due to an increase in collections from State shared sales tax activity.

In addition to the General Fund, Yavapai County is reporting six major funds. These funds are the Jail District, Regional Road, HURF Road, Capital Projects, Capital Projects Debt Service, and Poquito Valley Debt Service.

The Jail District fund balance increased \$228,501 in accordance with the adopted budget. The Regional Road fund balance increased \$869,242 because of decreases in the construction of road projects. The HURF Road fund balance increased \$2.2 million because of the decrease in roadway expenditures. Capital Projects fund balance decreased \$2.1 million because of capital projects such as the Courthouse restoration project. The Capital Projects Debt Service fund balance remains relatively unchanged from the prior fiscal year, and the Poquito Valley Debt Service fund balance increased slightly due to ongoing collections of its special assessment.

See Note 8 on pages 48 - 49 for a detail listing of the fund balance classifications.

General Fund Budgetary Highlights

The original General Fund budget appropriation for expenditures was \$89,679,704. Actual expenditures were \$4,498,928 less than the final budgeted appropriation amount, which is primarily due to departments monitoring and controlling expenditures. The Board approved budgeted transfers between departments during the fiscal year to reclassify expenditures and for departments that required an increase in budget appropriation. The departments, that required a budget transfer were Public Defender (\$862,619), Facilities (\$58,632), Board of Supervisors (\$39,500), Fleet (\$15,576), and Bagdad/Yarnell Justice of the Peace (\$3,559), for a combined transfer of \$979,886 from General Services. The final total General Fund budgeted appropriation of \$89,679,704 remained unchanged. The General Services expenditure budget includes negative amounts for internal cost recoveries, such as vehicle use and indirect costs, which resulted in actual expenditures of negative \$779,870 and a variance below the final budget of \$1.4 million.

Total revenues were \$1.6 million over total budgeted revenues (1.7%), which is primarily due to greater than anticipated collections (\$0.5 million) of voluntary exchange transactions categorized as permit revenue. In addition the County collected intergovernmental revenue, shared State sales taxes, in an amount that was (\$0.7 million) greater than budgeted.

Capital Asset and Debt Administration

Capital Assets. Yavapai County's investment in capital assets for its governmental activities as of June 30, 2014, amounts to \$268.8 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, equipment, infrastructure, software and construction in progress. In addition, roads and highways constructed in the fiscal year ended June 30, 2014, or in progress at that date, are included in capital assets. Infrastructure increased due to the completion of roadway projects. Construction in progress decreased \$6.6 million due to completion of planned capital projects.

Yavapai County Management's Discussion and Analysis

Yavapai County's Capital Assets (net of depreciation) (in millions)

	Governmental Activities	
	2014	2013
Land	\$ 62.6	\$ 62.1
Buildings	77.8	79.3
Equipment	10.4	9.3
Infrastructure	109.6	105.7
Software	1.3	1.4
Construction in progress	7.1	13.7
Total	<u>\$ 268.8</u>	<u>\$ 271.5</u>

Additional information on Yavapai County's capital assets can be found in Note 5 on page 43 of this report.

Long-term Debt. At the end of the current fiscal year, Yavapai County had total outstanding bonds of \$2,120,000 for special district road improvements. These bonds are secured by property assessments levied against the benefiting property owners.

Yavapai County's Outstanding Bonds (in millions)

	2014	2013
Special Assessment Debt Payable	<u>\$ 2.1</u>	<u>\$ 2.3</u>

State statutes limit the amount of general obligation debt a county may issue to 6 percent of its total assessed valuation. The current debt limitation for the County is \$133,957,776. Since the County has no general obligation debt, this amount equals the debt capacity. Additional information on long-term debt can be found in Note 7 on pages 44 - 45.

Long-term Capital Lease. On May 15, 2008, the County entered into a long term lease agreement in the amount of \$50 million for a period of twenty years with an interest rate of 4.45%. The lease agreement was renegotiated in June 2009 for \$25 million and is secured by a ground lease for the construction of the Camp Verde Superior Court and the Juvenile Justice Center. As of June 30, 2014, the outstanding lease balance is \$21.8 million.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for Yavapai County is currently 6.7%, which has decreased since 2013.
- Inflationary trends in the region are comparable to national and the State of Arizona indices.
- The economy at the national and state level is anticipated to have the effect of reducing or eliminating Federal and State of Arizona grant programs.

These factors were considered in preparing Yavapai County's budget for the 2014-15 fiscal year. The budgetary estimate of unassigned ending fund balance in the general fund of \$6,523,933 was appropriated for spending in the 2014-15 fiscal year budget.

Requests for Information

This financial report is designed to provide a greater overview of Yavapai County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department, 1015 Fair Street, Prescott, Arizona 86305.

<u>\$ 19,401,315</u>	<u>\$ 1,682</u>	<u>\$ 550,370</u>	<u>\$ 18,581,649</u>	<u>\$ 69,205,917</u>

Yavapai County
 Reconciliation of the Statement of Revenues, Expenditures, and Changes
 in Fund Balances of Governmental Funds to the Statement of Activities
 Year Ended June 30, 2014

Net change in fund balances—total governmental funds		\$ 268,442
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		
Capital outlay	13,302,323	
Depreciation expense	(15,995,806)	(2,693,483)
In the Statement of Activities, only the gain on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the book value of the capital assets sold.		
		(71,550)
In the Statement of Activities, the donation of capital assets increases net position, whereas in the governmental funds, the donation of capital assets does not affect available financial resources and therefore is not recognized.		
		92,895
Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.		
Principal repaid on bonds and capital lease		1,278,462
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.		
		1,555,713
Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available resources. In the Statement of Activities, however, which is presented on the accrual basis of accounting, expenses and liabilities are reported regardless of when the financial resources are available.		
Decrease in compensated absences	139,131	
Decrease in claims and judgments	97,442	
Decrease in interest payable	6,138	
Decrease in landfill closure and postclosure care costs	3,865	<u>246,576</u>
Change in net position of governmental activities		<u>\$ 677,055</u>

Note 1 - Summary of Significant Accounting Policies

Yavapai County's accounting policies conform to generally accepted accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

For the year ended June 30, 2014, the County implemented the provisions of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. GASB Statement No. 65 reclassifies certain items that were previously reported as assets and liabilities as deferred outflows of resources or deferred inflows of resources and recognizes certain other items that were previously reported as assets and liabilities as revenues or expenses.

A. Reporting Entity

The County is a general purpose local government that is governed by a separately elected board of supervisors. The accompanying financial statements present the activities of the County (the primary government) and its component units.

Component units are legally separate entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are so intertwined with the County that they are in substance part of the County's operations. Therefore, data from these units is combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the County. Each blended component unit discussed below has a June 30 year-end. The County has no discretely presented component units.

The following table describes the County's component units:

<u>Component Unit</u>	<u>Description; Criteria for Inclusion</u>	<u>Reporting Method</u>	<u>For Separate Financial Statements</u>
Yavapai County Flood Control District	A tax-levying district that provides flood control systems; the County's Board of Supervisors serves as the board of directors	Blended	Not available
Yavapai County Library District	Provides and maintains library services for the County's residents; the County's Board of Supervisors serves as the board of directors	Blended	Not available

Yavapai County
Notes to Financial Statements
June 30, 2014

<u>Component Unit</u>	<u>Description; Criteria for Inclusion</u>	<u>Reporting Method</u>	<u>For Separate Financial Statements</u>
Yavapai County Special Assessment Districts	Constructs or improves sidewalks, curbs and gutters, irrigation systems, and street lighting within the County; the County's Board of Supervisors serves as the board of directors	Blended	Not available
Yavapai County Jail District	A tax-levying district that acquires, constructs, operates, maintains, and finances county jails and jail systems; the County's Board of Supervisors serves as the governing board	Blended	Not available

Related Organizations – The United States Department of Agriculture deeded property to Yavapai County on February 6, 1957 to be used exclusively as a public airport facility. The property shall automatically revert to the United States in the event the property ceases to be used as a public airport facility. The Sedona-Oak Creek Airport Authority (Airport Authority) was created for the purpose of developing and promoting transportation and commerce by air in the State of Arizona, and in particular the development, promotion, and operation of air transportation facilities and air commerce in and around the Sedona area. In 1971, the Airport Authority entered into a 60-year lease with Yavapai County to manage and operate the Sedona Airport facility, which is owned by the County. The Airport Authority is governed by a 13 member Board of Directors approved by the County's Board of Supervisors. However, the Airport Authority's operations are completely separate from the County, and the County is not financially accountable for the Airport Authority. Therefore, based on the criterion of GASB Statement Nos. 14, 39, and 61, the financial activities of the Airport Authority have not been included in the accompanying financial statements.

The Industrial Development Authority of Yavapai County (Authority) is a legally separate entity that was created to assist in the financing of commercial and industrial enterprises: safe, sanitary, and affordable housing; and healthcare facilities. The Authority fulfills its function through the issuance of tax exempt or taxable revenue bonds. The County's Board of Supervisors appoints the Authority's Board of Directors. The Authority's operations are completely separate from the County and the County is not financially accountable for the Authority. Therefore, based on the criterion of GASB Statements Nos. 14, 39, and 61, the financial activities of the Authority have not been included in the accompanying financial statements.

Yavapai County
Notes to Financial Statements
June 30, 2014

B. Basis of Presentation

The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the County as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the information's usefulness.

Government-wide statements—Provide information about the primary government (the County) and its component units. The statements include a statement of net position and a statement of activities. These statements report the overall government's financial activities, except for fiduciary activities. Governmental activities generally are financed through taxes and intergovernmental revenues.

A statement of activities presents a comparison between direct expenses and program revenues for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The County does not allocate indirect expenses to programs or functions. Program revenues include:

- charges to customers or applicants for goods, services, or privileges provided;
- operating grants and contributions; and
- capital grants and contributions, including special assessments.

Revenues that are not classified as program revenues, including internally dedicated resources and all taxes the County levies or imposes, are reported as general revenues.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements to minimize the double counting of internal activities. However, charges for interfund services provided and used are not eliminated if the prices approximate their external exchange values.

Fund financial statements—Provide information about the County's funds, including fiduciary funds and blended component units. Separate statements are presented for the governmental and fiduciary fund categories. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Fiduciary funds are aggregated and reported by fund type.

The County reports the following major governmental funds:

The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Jail District Fund* accounts for County jail operations and is funded by a ¼ cent County sales tax.

Yavapai County
Notes to Financial Statements
June 30, 2014

The *Regional Road Fund* accounts for road construction and maintenance of major regional roads and is funded by a portion of the ½ cent County sales tax and impact fees.

The *HURF Road Fund* accounts for road maintenance and construction of nonmajor roads and is funded primarily by highway user revenue.

The *Capital Projects Fund* accounts for major capital projects and is funded by a portion of the ½ cent County sales tax.

The *Capital Projects Debt Service Fund* accounts for the resources accumulated and payments made on the capital lease agreement for the construction of court and juvenile detention buildings.

The *Poquito Valley Debt Service Fund* accounts for the accumulation of resources for the payment of principal and interest on the revenue bonds issued for special assessment bonds. Funding for the special assessment debt is provided by assessments made against the benefiting owners.

The County also reports the following fund types:

The investment trust funds account for pooled assets the County Treasurer holds and invests on behalf of other governmental entities.

The agency funds account for assets the County holds as an agent for the State, cities, towns, and other parties.

C. Basis of Accounting

The government-wide and fiduciary fund financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. The agency funds are custodial in nature and do not have a measurement focus but utilize the accrual basis of accounting for reporting its assets and liabilities. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenue in the year for which they are levied. Grants and donations are recognized as revenue as soon as all eligibility requirements the provider imposed have been met.

Under the terms of grant agreements, the County funds certain programs by a combination of grants and general revenues. Therefore, when program expenses are incurred, there are both restricted and unrestricted resources available to finance the program. The County applies grant resources, except for PILT, to such programs before using general revenues.

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when they become both measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. The County's major

Yavapai County
Notes to Financial Statements
June 30, 2014

revenue sources that are susceptible to accrual are property taxes, special assessments, intergovernmental, charges for services, and investment earnings. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, compensated absences, and landfill closure and postclosure care costs, which are recognized as expenditures to the extent they are due and payable. General capital asset acquisitions are reported as expenditures in governmental funds. Issuances of general long-term debt and acquisitions under capital lease agreements are reported as other financing sources.

D. Cash and Investments

Money market investments with a remaining maturity of 1 year or less at time of purchase are stated at amortized cost. All other investments are stated at fair value.

E. Inventories

Inventories in the government-wide financial statements are recorded as assets when purchased and expensed when consumed. These inventories are stated at cost using the first-in, first-out method.

The County accounts for its inventories in the governmental funds using the consumption method. Inventories of the governmental funds consist of expendable supplies which are recorded as expenditures when consumed rather than when purchased. Amounts on hand at year end are shown on the balance sheet as an asset for informational purposes only and as nonspendable fund balance to indicate that they do not constitute "available spendable resources." These inventories are stated at cost using the first-in, first-out method.

F. Prepaid Items

In the government-wide financial statements, prepaid purchases are recorded as assets when the goods or services are purchased and expensed over the period consumed.

Prepaid items are accounted for using the consumption method in the governmental fund financial statements. Using this method, prepaid purchases are recorded as assets when the goods or services are purchased and expensed over the period consumed. Amounts at year-end are reported on the balance sheet as an asset for informational purposes only and as nonspendable fund balance to indicate that they do not constitute "available spendable resources."

G. Property Tax Calendar

The County levies real and personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

Yavapai County
Notes to Financial Statements
June 30, 2014

A lien assessed against real and personal property attaches on the first day of January preceding assessment and levy.

H. Capital Assets

Capital assets are reported at actual cost, or estimated historical cost if historical records are not available. Donated assets are reported at estimated fair value at the time received.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets are as follows:

	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Land (including right of ways and easements)	\$10,000	N/A	N/A
Buildings	10,000	Straight-line	20-40 years
Equipment	5,000	Straight-line	5-15 years
Infrastructure	10,000	Straight-line	10-75 years
Software	10,000	Straight-line	3-5 years
Construction in progress	10,000	N/A	N/A

I. Deferred Inflows of Resources

The balance sheet includes a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of fund balance that applies to future periods and will be recognized as a revenue in future periods.

J. Fund Balance Classifications

The governmental funds' fund balances are reported separately within classifications based on a hierarchy of the constraints placed on those resources' use. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form, such as inventories, or are legally or contractually required to be maintained intact. Restricted fund balances are those that have externally imposed restrictions on their usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations.

The unrestricted fund balance category is composed of committed, assigned, and unassigned resources. Committed fund balances are self-imposed limitations that the County's Board of Supervisors approved, which is the highest level of decision-making authority within the County. The Board can, by approval of an agenda item at a public meeting prior to the end of the fiscal year, commit fund balance. Only the Board can

Yavapai County
Notes to Financial Statements
June 30, 2014

remove or change the constraints placed on committed fund balances, by approval of an agenda item to remove or revise the limitation. Approval of an agenda item by the Board is the only highest level action that constitutes the most binding constraint.

Assigned fund balances are resources constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed. The Board of Supervisors has not delegated authority to make assignments of resources for a specific purpose.

The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned.

When an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, the County will use restricted fund balance first. For the disbursement of unrestricted fund balances, the County will use committed amounts first, followed by assigned amounts, and lastly unassigned amounts.

K. Investment Earnings

Investment earnings is composed of interest, dividends, and net changes in the fair value of applicable investments.

L. Compensated Absences

Compensated absences payable consists of paid time off (PTO) leave employees earned based on services already rendered.

Employees may accumulate up to 764 hours of PTO, depending on years of service, but they forfeit any unused PTO hours in excess of the maximum amount each pay period. Upon terminating employment, the County pays all unused and unforfeited PTO benefits to employees. Accordingly, PTO benefits are accrued as a liability in the governmental-wide financial statements. A liability for these amounts is reported in the governmental funds' financial statements only if they have matured, for example, as a result of employee resignations and retirements by fiscal year-end.

Employees may accumulate up to 520 hours of catastrophic time (CAT) leave. CAT leave may be used in the case of illness or injury suffered by an employee or employee's immediate family, but only after using at least forty hours of consecutive PTO leave. CAT leave benefits are cumulative but employees forfeit them upon terminating employment. Because CAT leave benefits do not vest with employees, a liability for CAT leave benefits is not accrued in the financial statements.

Note 2 - Stewardship, Compliance, and Accountability

Deficit fund balances—At June 30, 2014, the Airport Development and CYMPO (nonmajor governmental) Funds reported deficit fund balances of \$37,389 and \$630, respectively.

Yavapai County
Notes to Financial Statements
June 30, 2014

Note 3 - Deposits and Investments

Arizona Revised Statutes (A.R.S.) authorize the County to invest public monies in the State Treasurer's investment pool; obligations issued or guaranteed by the United States or any of the senior debt of its agencies, sponsored agencies, corporations, sponsored corporations, or instrumentalities; specified state and local government bonds, notes and other evidences of indebtedness; interest-earning investments such as savings accounts, certificates of deposit, and repurchase agreements in eligible depositories; specified commercial paper issued by corporations organized and doing business in the United States; specified bonds, debentures, notes, and other evidences of indebtedness that are denominated in United States dollars; and certain open-end and closed-end mutual funds, including exchange traded funds. In addition, the County Treasurer may invest trust funds in certain fixed income securities of corporations doing business in the United States or District of Columbia.

Credit risk

Statutes have the following requirements for credit risk:

1. Commercial paper must be of prime quality and be rated within the top two ratings by a nationally recognized rating agency.
2. Bonds, debentures, notes and other evidences of indebtedness that are denominated in United States dollars must be rated "A" or better, at the time of purchase, by at least two nationally recognized rating agencies.
3. Fixed income securities must carry one of the two highest ratings by Moody's investors service and Standard and Poor's rating service. If only one of the above-mentioned services rates the security, it must carry the highest rating of that service.

Custodial credit risk

Statutes require collateral for deposits and certificates of deposit at 101 percent of all deposits not covered by federal depository insurance.

Concentration of credit risk

Statutes do not include any requirements for concentration of credit risk.

Interest rate risk

Statutes require that public monies invested in securities and deposits have a maximum maturity of 5 years. The maximum maturity for investments in repurchase agreements is 180 days.

Foreign currency risk

Statutes do not allow foreign investments unless the investment is denominated in United States dollars.

Deposits—At June 30, 2014, the carrying amount of the County's deposits was \$69,506,800, and the bank balance was \$70,304,103. The County does not have a formal policy with respect to custodial credit risk.

Yavapai County
Notes to Financial Statements
June 30, 2014

At June 30, 2014, none of the County's bank balance was exposed to custodial credit risk.

Investments—The County's investments at June 30, 2014, were as follows:

Investment Type	Amount
State Treasurer's Investment Pool 5	\$ 16,483
State Treasurer's Investment Pool 7	8,035,843
U.S. Treasury securities	31,956,714
U.S. agency securities	57,275,511
Repurchase agreement	389,338
Money market funds	6,507
	\$ 97,680,396

The State Board of Investment provides oversight for the State Treasurer's pools. The fair value of a participant's position in the pool approximates the value of that participant's pool shares, and the participant's shares are not identified with specific investments.

Credit risk— The County does not have a formal investment policy with respect to credit risk. At June 30, 2014, credit risk for the County's investments was as follows:

Investment Type	Rating	Rating Agency	Amount
State Treasurer's Investment Pool 5	AAAf/S1+	Standard and Poor's	\$ 16,483
State Treasurer's Investment Pool 7	Unrated	Not applicable	8,035,843
Repurchase agreement (implicitly guaranteed)	AA+	Standard and Poor's	389,338
U.S. agency securities	AA+	Standard and Poor's	57,275,511
Money market funds	Unrated	Not applicable	6,507
			\$65,723,682

Custodial credit risk—For an investment, custodial credit risk is the risk that, in the event of the counterparty's failure, the County will not be able to recover the value of its investments or collateral securities that are in an outside party's possession. The County does not have a formal investment policy with respect to custodial credit risk.

Concentration of credit risk— The County does not have a formal investment policy with respect to concentration of credit risk. The County had investments at June 30, 2014, of 5 percent or more in Federal National Mortgage Association, Federal Home Loan Mortgage Corporation and Federal Home Loan Bank. These investments were 12.5 percent, 20.9 percent and 21.0 percent, respectively, of the County's total investments.

Yavapai County
Notes to Financial Statements
June 30, 2014

Interest rate risk—The County does not have a formal policy regarding interest rate risk. At June 30, 2014, the County had the following investments in debt securities:

Investment Type	Amount	Weighted Average Maturity (Years)
State Treasurer's Investment Pool 5	\$ 16,483	.16
State Treasurer's Investment Pool 7	8,035,843	.05
U.S. Treasury securities	31,956,714	2.48
U.S. agency securities	57,275,511	2.60
Repurchase agreement	389,338	.00
Money market funds	6,507	.00
	<u>\$ 97,680,396</u>	

A reconciliation of cash, deposits, and investments to amounts shown on the Statements of Net Position follows:

Cash, deposits, and investments:

Cash on hand	\$ 41,425
Amount of deposits	69,506,800
Amount of investments	97,680,396
Total	<u>\$167,228,621</u>

	Governmental Activities	Investment Trust Funds	Agency Funds	Total
Cash and cash equivalents	\$ 63,868,683	\$ 99,815,822	\$ 3,544,116	\$ 167,228,621

Note 4 - Due From Other Governments

Amounts due from other governments for governmental activities at June 30, 2014, include \$4,351,515 in state-shared revenue from sales tax, \$1,126,623 in county excise tax distributions due from the State Treasurer, \$302,193 in state motor vehicle license taxes from the Arizona Department of Transportation and \$217,902 in other fees from federal, state, and local governments recorded in the General Fund; \$1,251,596 in sales tax collections, \$108,209 in inmate housing fees and \$6,676 in other fees from the federal, state and local governments recorded in the Jail District Fund; \$1,001,443 in county excise tax distributions due from the State Treasurer recorded in the Regional Road Fund; \$949,956 in state-shared revenue from highway user taxes, \$118,825 in state motor vehicle license tax, and \$32,362 in other fees from federal, state, and local governments recorded in the HURF Road Fund; \$375,541 in county excise tax distributions due from the State Treasurer recorded in the Capital Projects Fund; and \$1,407,262 in grants and other fees from federal, state and local governments recorded in the Other Governmental Funds.

Yavapai County

Depreciation expense was charged to functions as follows:

Governmental activities:	
General government	\$ 3,235,340
Public safety	2,367,364
Highway and streets	9,986,010
Sanitation	68,014
Health	217,345
Culture and recreation	25,467
Education	96,266
Total governmental activities depreciation expense	<u>\$ 15,995,806</u>

Note 6 - Construction Commitments

The County had major contractual commitments related to various capital projects at June 30, 2014, for the construction of road improvements and buildings. At June 30, 2014, the County had spent \$722,630 on these projects and had remaining contractual commitments with contractors of \$2,631,700. The road improvement projects are being funded by the County's excise tax out of the Regional Road Fund. The building construction is being funded by the County's excise tax out of the Capital Projects Fund.

Yavapai County
Notes to Financial Statements

Note 7 - Long-Term Liabilities

The following schedule details the County's long-term liability and obligation activity for the year ended June 30, 2014:

	Balance July 1, 2013	Additions	Reductions	Balance June 30, 2014	Due within 1 year
Governmental Activities:					
Special assessment debt	\$ 2,295,000	\$ -	\$ (175,000)	\$ 2,120,000	\$ 175,000
Capital leases payable	22,933,568	-	(1,103,462)	21,830,106	1,153,112
Landfill closure and postclosure care costs payable	981,245	17,564	(21,429)	977,380	21,345
Compensated absences payable	7,199,255	5,958,011	(6,097,142)	7,060,124	3,271,697
Claims and judgments payable	387,265	220,000	(317,442)	289,823	123,030
Total governmental activities long-term liabilities	<u>\$ 33,796,333</u>	<u>\$ 6,195,575</u>	<u>\$ (7,714,475)</u>	<u>\$ 32,277,433</u>	<u>\$ 4,744,184</u>

Special assessment debt

Special assessment bonds are secured by pledges of revenues from special assessments levied against the benefiting property owners. Bond proceeds were used to finance construction in these districts. These bonds are generally callable with interest payable semiannually. However, in accordance with the bond indenture for each special assessment bond issue, and in the opinion of the County Attorney, the County is not legally obligated in any way for the special assessment bonded indebtedness. The total principal and interest remaining on the bonds is \$3,057,640, payable through January 2030. Annual principal and interest payments on the bonds are expected to require 100% of pledged revenues. Principal and interest paid for the current year were \$319,717 and the special assessments were \$445,823.

The following special assessment districts had debt outstanding at June 30, 2014:

Description	Original Amount Issued	Maturity Ranges	Interest Rates	Outstanding Principal June 30, 2014
Coyote Springs Road Improvement	\$1,552,000	1/1/15-1/1/22	6.40%	\$ 640,000
Poquito Valley Road Improvement	1,857,000	1/1/15-1/1/30	6.625%	1,480,000
Total				<u>\$ 2,120,000</u>

The following schedule details debt service requirements to maturity for the County's special assessment debt payable at June 30, 2014:

Year ending June 30	Principal	Interest
2015	\$ 175,000	\$ 133,303
2016	175,000	121,889
2017	175,000	110,476
2018	175,000	99,062
2019	175,000	87,648
2020-2024	705,000	277,937
2025-2029	450,000	104,344
2030	90,000	2,981
Total	<u>\$ 2,120,000</u>	<u>\$ 937,640</u>

Notes to Financial Statements
June 30, 2014

Capital leases

On May 15, 2008, the County entered into a \$50,000,000 capital lease agreement to finance the construction of court, administrative, and juvenile detention buildings. The property for these facilities is owned by the County. The lessor leased these sites from the County and leased the sites and the facilities being financed back to the County. On June 15, 2009, the County entered into a revised capital lease agreement which allowed the County to prepay \$25,000,000 in principal and a prepayment penalty of \$250,000. Lease payments will equal the aggregate amount of principal and interest required to extinguish the debt. Upon the final lease payment, the title to the assets will transfer to the County. The County's obligation to make lease payments will be subject to and is dependent upon annual appropriations being made by the County.

The assets acquired through the capital lease are as follows:

	Governmental Activities
Buildings	\$ 25,000,000
Less: accumulated depreciation	(1,438,435)
Carrying value	<u>\$ 23,561,565</u>

The following schedule details debt service requirements to maturity for the County's capital lease payable at June 30, 2014:

	Governmental Activities
Year ending June 30	
2015	\$ 2,111,865
2016	2,111,865
2017	2,111,865
2018	2,111,865
2019	2,111,865
2020-2024	10,559,324
2025-2028	8,447,459
Total minimum lease payments	<u>29,566,108</u>
Less amount representing interest	(7,736,002)
Present value of net minimum lease payments	<u>\$ 21,830,106</u>

Landfill closure and postclosure care costs

State and federal laws and regulations require the County to place final covers on its 7 landfill sites when they stop accepting waste and to perform certain maintenance and monitoring functions at the sites for 30 years after closure. Although closure and postclosure care costs will not be paid until near or after the dates that the landfills stop accepting waste, the County reports a portion of these closure and postclosure care costs in each period that the County operates the landfills. These costs will be paid from the Landfill/Environment special revenue fund.

The amount recognized each year is based on landfill capacity used at the end of each fiscal year. All 7 landfills stopped accepting waste and were closed prior to June 30, 2014. As of June 30, 2014, the landfill closure and postclosure care liability of \$977,380 represents the cumulative amount of costs remaining on these closed landfills, which is net of expenditures incurred to date. This amount is based on what it would cost to perform all closure and postclosure care in fiscal year 2014 and has been adjusted for changes in estimates during the fiscal year. The actual cost may be higher due to inflation, changes in technology, or changes in regulations.

According to state and federal laws and regulations, the County must comply with the local government financial test requirements that ensure that the County can meet the costs of landfill closure, postclosure, and corrective action when needed. The County is in compliance with these requirements.

Insurance claims

The County provides health benefits to its employees and their dependents through the Yavapai Combined Trust, currently composed of four members. The Trust provides benefits up to \$250,000 per individual per plan year through a self-funding agreement with its participants and purchases commercial insurance to cover claims in excess of this limit. The Trust does not provide any postemployment benefits. An independent administrator provides the trust with claim and recordkeeping services. The County is responsible for paying the premiums and requires its employees to contribute for dependent coverage. The County is not liable for claims in excess of coverage limits and cannot be assessed retroactive premium adjustments. If it withdraws from the Trust, the County would be responsible for its proportional share of any claims run-out costs, which exceed Trust Fund reserves established for the incurred but not reported claims liability. If the Trust were to terminate, the County would be responsible for its proportional share of any Trust deficit.

Yavapai County
Notes to Financial Statements
June 30, 2014

Compensated absences and claims and judgments

Compensated absences are paid from various funds in the same proportion that those funds pay payroll costs. Claims and judgments are generally paid from the fund that accounts for the activity that gave rise to the claim. During fiscal year 2014, the County paid for compensated absences as follows: 57 percent from the General Fund, 17 percent from major funds, and 26 percent from other funds. The County paid for claims and judgments from the General Fund.

Note 9 - Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For these risks of loss, the County joined and is covered by three public entity risk pools: the Arizona Counties Property and Casualty Pool and the Arizona Counties Workers' Compensation Pool which are described below, and the Yavapai Combined Trust, which is described on page 46.

The Arizona Counties Property and Casualty Pool is a public entity risk pool currently composed of 11 member counties. The pool provides member counties catastrophic loss coverage for risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters; and provides risk management services. Such coverage includes all defense costs as well as the amount of any judgment or settlement. The County is responsible for paying a premium based on its exposure in relation to the exposure of the other participants, and a deductible of \$25,000 per occurrence for property claims and \$50,000 per occurrence for liability claims. The County is also responsible for any payments in excess of the maximum coverage of \$300 million per occurrence for property claims and \$15 million per occurrence for liability claims. However, lower limits apply to certain categories of losses. A county must participate in the pool at least 3 years after becoming a member; however, it may withdraw after the initial 3-year period.

The Arizona Counties Workers' Compensation Pool is a public entity risk pool currently composed of 11 member counties. The pool provides member counties with workers' compensation coverage, as law requires, and risk management services. The County is responsible for paying a premium, based on an experience-rating formula that allocates pool expenditures and liabilities among the members.

The Arizona Counties Property and Casualty Pool and the Arizona Counties Workers' Compensation Pool receive independent audits annually and an audit by the Arizona Department of Insurance every 5 years. Both pools accrue liabilities for losses that have been incurred but not reported. These liabilities are determined annually based on an independent actuarial valuation. If a pool were to become insolvent, the County would be assessed an additional contribution.

Note 10 - Pensions and Other Postemployment Benefits

Plan Descriptions - The County contributes to four plans, three of which are described below. The Elected Officials Retirement Plan is not described due to its relative insignificance to the County's financial statements. The plans are component units of the State of Arizona, state statutes establish benefits, and the plans generally provide retirement, long-term disability, and health insurance premium benefits, including death and survivor benefits. The retirement benefits are generally paid at a percentage, based on years of service, of the retirees' average compensation. Long-term disability benefits vary by circumstance, but generally pay a percentage of the employee's monthly compensation. The health insurance premium benefit is paid as a fixed dollar amount per month towards the retiree's healthcare insurance premiums, in amounts based on whether the benefit is for the retiree or for the retiree and his or her dependents.

The *Arizona State Retirement System* (ASRS) administers a cost-sharing, multiple-employer defined benefit pension plan; a cost-sharing, multiple-employer defined benefit health insurance premium benefit plan; and a cost-sharing, multiple-employer defined benefit long-term disability plan that covers employees of the State of Arizona and employees of participating political subdivisions and school districts. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 2.

The *Public Safety Personnel Retirement System* (PSPRS) administers an agent multiple-employer defined benefit pension plan and an agent multiple-employer defined benefit health insurance premium benefit plan that covers public safety personnel who are regularly assigned hazardous duty as employees of the State of Arizona and participating political subdivisions. The PSPRS, acting as a common investment and administrative agent, is governed by a seven-member board known as the Board of Trustees and the participating local boards according to the provisions of A.R.S. Title 38, Chapter 5, Article 4.

The *Corrections Officer Retirement Plan* (CORP) administers an agent multiple-employer defined benefit pension plan and an agent multiple-employer defined benefit health insurance premium benefit plan that covers state, county, and local correction officers; dispatchers; and probation, surveillance, and juvenile detention officers. The Dispatchers is a group separately covered under the plan and is not described due to its relative insignificance to the County's financial statements. The Administrative Office of the Courts is a group separately covered under the plan in which the related plan information that follows is separately referred to as the CORP-AOC. The CORP is governed by the PSPRS Board of Trustees and the participating local boards according to the provisions of A.R.S. Title 38, Chapter 5, Article 6.

Beginning in fiscal year 2014, PSPRS and CORP established separate funds for pension benefits and health insurance premium benefits. Previously, the plans recorded both pension and health insurance premium contributions in the same Pension Fund. During fiscal year 2014, the plans transferred prior-year health insurance premium benefit contributions that exceeded benefit payments from each plan's Pension Fund to the new Health Insurance Fund.

--	---

Funding Policy—The Arizona State Legislature establishes and may amend active plan members' and the County's contribution rates for the ASRS, PSPRS, and CORP.

Cost-sharing plans—For the year ended June 30, 2014, statute required active ASRS members to contribute at the actuarially determined rate of 11.54 percent (11.3 percent for retirement and 0.24 percent for long-term disability) of the members' annual covered payroll, and statute required the County to contribute at the actuarially determined rate of 11.54 percent (10.7 percent for retirement, 0.6 percent for health insurance premium benefit, and 0.24 percent for long-term disability) of the members' annual covered payroll.

The County's contributions for the current and 2 preceding years, all of which were equal to the required contributions, were as follows:

	Retirement Fund	Health Benefit Supplement Fund	Long-Term Disability Fund
Year ended June 30			
2014	\$ 4,850,654	\$ 271,999	\$ 108,800
2013	4,616,179	292,733	108,086
2012	4,246,623	271,061	103,261

Agent plans—For the year ended June 30, 2014, statute required active PSPRS members to contribute 10.35 percent of the members' annual covered payroll, and the County was required to contribute 29.14 percent, the aggregate of which is the actuarially required amount. The health insurance premium benefit portion of the contribution rate was actuarially set at 1.41 percent of covered payroll. Statute required active CORP members to contribute 8.41 percent of the members' annual covered payroll. In addition, statute required the County to contribute 13.04 percent. The aggregate of the members' and the County's contributions is the actuarially required amount. The health insurance premium benefit portion of the contribution rate was actuarially set at 0.82 percent of covered payroll. Active CORP-AOC members were required by statute to contribute 8.41 percent of the members' annual covered payroll. In addition, the County was required to contribute 15.58 percent. The aggregate of the members' and the County's contributions is the actuarially required amount. The health insurance premium benefit portion of the contribution rate was actuarially set at 1.13 percent of covered payroll.

Yavapai County
Notes to Financial Statements
June 30, 2014

All participating employers in the CORP-AOC are accounted for as one group within the Corrections Officer Retirement Plan, and as such, an actuarial valuation of CORP-AOC is prepared only for the group as a whole. Therefore, actuarial information and certain trend information for the County, as a participating government, are not available.

Actuarial methods and assumptions—The contribution requirements for the year ended June 30, 2014, were established by the June 30, 2012, actuarial valuations, and those actuarial valuations were based on the following actuarial methods and assumptions.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the plans' funded status and the annual required contributions are subject to continual revision as actual results are compared to past expectations and new estimates are made. The required schedule of funding progress presented as required supplementary information provides multiyear trend information that shows whether the actuarial value of the plans' assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Projections of benefits are based on (1) the plans as the County and plans' members understand them and include the types of benefits in force at the valuation date, and (2) the pattern of sharing benefit costs between the County and plans' members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. The significant actuarial methods and assumptions used are the same for both plans and related benefits (unless noted), and the following actuarial methods and assumptions were used to establish the fiscal year 2014 contribution requirements:

Actuarial valuation date	June 30, 2012
Actuarial cost method	Entry age normal
Amortization method	Level percent closed for unfunded actuarial accrued liability, open for excess
Remaining amortization period	24 years for unfunded actuarial accrued liability, 20 years for excess
Asset valuation method	7-year smoothed market value (80%/120% market)
Actuarial assumptions:	
Investment rate of return	8%
Projected salary increases includes inflation at	5% – 9% for PSPRS and 5% – 8.25% for CORP 5% for PSPRS and CORP

Note 12 - County Treasurer's Investment Pool

Arizona Revised Statutes require community colleges, school districts, and other local governments to deposit certain public monies with the County Treasurer. The Treasurer has a fiduciary responsibility to administer those and the County's monies under the Treasurer's stewardship. The Treasurer invests, on a pool basis, all idle monies not specifically invested for a fund or program. In addition, the Treasurer determines the fair value of those pooled investments annually at June 30.

The County Treasurer's investment pool is not registered with the Securities and Exchange Commission as an investment company, and there is no regulatory oversight of its operations. The pool's structure does not provide for shares, and the County has not provided or obtained any legally binding guarantees to support the value of the participants' investments.

The Treasurer allocates interest earnings to each of the pool's participants. However, for the County's monies in the pool, the Board of Supervisors authorized \$5,994 of interest earned in certain other funds to be transferred to the General Fund.

The deposits and investments the County holds are included in the County Treasurer's investment pool, except for \$41,425 of cash on hand and \$4,121,509 of deposits. Therefore, the deposit and investment risks of the Treasurer's investment pool are substantially the same as the County's deposit and investment risks. See Note 3 for disclosure of the County's deposit and investment risks.

Details of each major investment classification follow:

Investment Type	Principal	Interest Rates	Maturities	Fair Value
State Treasurer's Investment Pool 5	\$ 16,483	None stated	None stated	\$ 16,483
State Treasurer's Investment Pool 7	8,035,843	None stated	None stated	8,035,843
U.S. treasury securities	31,885,021	0.50-0.875%	6/15/16-5/31/17	31,956,714
U.S. agency securities	56,261,934	0.50-1.30%	9/19/14-5/14/19	57,275,511
Repurchase agreement (implicitly guaranteed)	389,338	0.02%	Daily	389,338
Money market funds	6,507	0.00%	7/1/14	6,507

Yavapai County
Required Supplementary Information
Notes to Budgetary Comparison Schedules
Year Ended June 30, 2014

Note 1 – Budgeting and Budgetary Control

Arizona Revised Statutes (A.R.S.) requires the County to prepare and adopt a balanced budget annually for each governmental fund. The Board of Supervisors must approve such operating budgets on or before the third Monday in July to allow sufficient time for the legal announcements and hearings required for the adoption of the property tax levy on the third Monday in August. A.R.S. prohibits expenditures or liabilities in excess of the amounts budgeted.

Expenditures may not legally exceed appropriations at the department level. In certain instances, transfers of appropriations between departments or from the contingency account to a department may be made upon the Board of Supervisors' approval.

Note 2 – Budgetary Basis of Accounting

The County's budget is prepared on a basis consistent with generally accepted accounting principles.

Yavapai County
Required Supplementary Information
Notes to Schedule of Agent Retirement Plans' Funding Progress
Year Ended June 30, 2014

Note 1 – Actuarial Information Available

All participating employers in the CORP Administrative Office of the Courts (AOC) are accounted for as one group within the Corrections Officer Retirement Plan, and as such, an actuarial valuation of CORP-AOC is prepared only for the group as a whole. Therefore, actuarial information for the County, as a participating government, is not available.

Note 2 – Factors That Affect the Identification of Trends

Beginning in fiscal year 2014, PSPRS and CORP established separate funds for pension benefits and health insurance premium benefits. Previously, the plans recorded both pension and health insurance premium contributions in the same Pension Fund. During fiscal year 2014, the plans transferred prior-year health insurance premium benefit contributions that exceeded benefit payments from each plan's Pension Fund to the new Health Insurance Fund.

This page is left blank intentionally.

Yavapai County
Nonmajor Governmental Funds
Year Ended June 30, 2014

SPECIAL REVENUE FUNDS

Health Care	Accounts for a variety of health service programs funded by federal and state grant funds, appropriations, fees and local government contributions.
Recorder's Surcharge	Accounts for the collection of a special recording surcharge, not to exceed four dollars, to be used to defray the cost of converting the County Recorder's document storage and retrieval system to micrographics or computer automation as established by A.R.S. § 11-475.01.
Assessor's Surcharge	Accounts for the collection of a special recording surcharge, not to exceed four dollars, to be used to defray the cost of converting the County Assessor's document storage and retrieval system to micrographics or computer automation as established by A.R.S. § 11-269.06.
Treasurer's Surcharge	Accounts for the collection of a processing fee for tax liens, to be used to defray the cost of converting or upgrading an automatic public information system as established by A.R.S. § 11-495.
Election	Accounts for various federal grants administered by Elections.
Public Library	Provides and maintains library services for the residents of Yavapai County. Operations are funded by a secondary tax levy.
Education Service Agency	Educational services and programs, including an accommodation school, administered by the County School Superintendent.
Parks & Recreation	Accounts for fees and grants used for construction, maintenance and operation of parks.
Water Advisory Committee	Accounts for local government contributions used to assess the current and future supply of water.
Landfill / Environment	Used to fund operations of transfer stations, waste tire operations and closure costs of County landfills.
Public Works	Accounts for funds restricted to construction, repair and maintenance of County roads and Local Transportation Assistance Funds.
Finance	Accounts for the Workforce Investment Act federal grants and Fill the Gap monies collected and distributed in accordance with A.R.S. § 41-2421.
Improvement Districts	Administration of special districts for Street Lighting, Road and Sewer improvements.
Clerk of Superior Court	Accounts for various fees collected and used in accordance with state statutes.
County Attorney	Accounts for various programs administered by the County Attorney including Anti-Racketeering, Victim Witness and Bad Check.

Yavapai County
Nonmajor Governmental Funds
Year Ended June 30, 2014

Law Enforcement	Used for various law enforcement services and programs. Funding sources include federal and state grants.
Emergency Management	Accounts for programs administered by the Emergency Management department to provide services, equipment and supplies for law enforcement or other agencies dealing with emergency response.
Probation	Accounts for Adult and Juvenile Probation programs and services provided in coordination with the Superior Court system.
Courts	Accounts for statutory fees and surcharges related to the courts, and is used for the processing of criminal cases as well as court enhancement and records improvement.
Public Defender	Provides training related seminars, books and materials for staff and attorneys. Includes a state grant for indigent defense costs.
Airport Development	Airport enhancement projects for Seligman, Bagdad and Sedona funded by State and Federal grants.
CYMPO	Accounts for Federal grants administered by the Central Yavapai Metropolitan Planning Organization (CYMPO).

DEBT SERVICE FUNDS

The Debt Service Funds account for the accumulation of resources for the payment of principal and interest on the revenue bonds issued for special assessment bonds for the Coyote Springs, and Granite Gardens special assessment districts and the notes payable for the Prescott East special assessment district. Funding for the special assessment debt is provided by assessments made against the benefiting owners.

STATISTICAL SECTION

Yavapai County
Statistical Section
Year Ended June 30, 2014

This part of the Yavapai County comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health.

Contents	Page
Financial Trends These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.	110
Revenue Capacity These schedules contain information to help the reader assess the County's most significant local revenue source, the property tax.	116
Debt Capacity These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.	120
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place.	123
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.	125

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

2014	445,823	175,000	145,797	1.39

Source: Details regarding the County's outstanding debt can be found in the notes to the financial statements. Prior to 2008 there were no Highway Construction Advancement revenue bonds.

- 1) Revenues include beginning fund balance and transfers in. Beginning fund balance is included in revenues since it represents unexpended pledged revenues.
- 2) Expenditures include transfers out, except those for debt service.
- 3) Highway project repayments include unspent bond proceeds and repayments made by the Arizona Department of Transportation.
- 4) Final payments for the Jail District and Highway Construction Advancement Revenue Bonds were made during 2012.
